So far as can be traced, the present outbreak of disorder had its origin in politics when Col. Smyth, a popular Ulster officer, was killed by Sinn Feiners in Cork in July, 1920. The Belfast Protestant shipyard workers drove the Catholics out of the shipyards in retaliation, killing several, and from that time there has been a series of redying down for a time but blazing up

Conditions have been particularly bad since last November, and, although there is a large force of British troops in the city, they can do little, being unfamiliar with conditions and depend ent upon partisan guides for information. Hundreds have been killed and wounded during this period, and prac-tically every man in the working class districts is armed. The sound of firing is the signal for every one to rush for his gun. Battles between snipers often last for days.

Lina Cavalieri. The fact that Cavalieri was not assigned to an important all proportion.

This district is known as the Queen contract with the REPLY TO FARRAR company, is believed to have much to do with Muratore's refusal to sing cipal thoroughfare. It comprises a network of streets lined with little red Catholic homes are occupied by two, three, or four families whose own mire Mary Garden both as an artist and as a director. Therein lies one of our chief errors in dealing with unemployment problems. We know that this trouble is coming each year, but we are invariably caught without preparation to meet it. It could be met by providing a reservoir of jobs, where work could be set aside in periods of general employment and work could be taken out to supply the seasonal need of employment.

The construction and operation of such a reser voir, of course, would be a gigantic and difficult task. It would require the cooperation of the largest employers of labor throughout the country, and probably of the federal government, but it would return huge dividends in the form of a stable labor market and a more contented and prosperous group of workers.

Robert Beard's mother thinks not, for she has had that happy experience with her little son. Robert "never has had a sick day" she says, in spite of "the intense heat" of last summer.

Robert has been fed on Borden's Eagle Brand Milk practically all of his life—and has thrived steadily. Thousands of other children healthy at birth, have developed into sturdy youngsters on Eagle Brand. Thousands more who were weak, undernourished, puny, have grown healthy and strong on it too. Doctors recommend it in stub-born feeding cases—it is so easily digested.

Don't experiment with foods of which you are doubtful. Borden's Eagle Brand Milk has been the standard baby food for three generations. For it is just pure milk and sugar-the natural food when mother's milk fails.

Italian Chocolate Creams-A wonderful assortment of chocolates. Tastes you never tasted before. And you get the real rich chocolate flavor most people love so well. 70c

Which is your favorite candy? Do you like whipped cream chocolates - or chocolates and bon bons - or hard center chocolates - or assorted chocolates? No matter which you prefer you may have your favorite at Rubel's for only 70 cents a pound.

And never forget that Rubel's candy is the very finest candy which can possibly be made. You can buy candy for less money but when you do so you simply can't get the same high quality and wonderful taste which you always get in Rubel's.

We make our own candy in our own candy kitchen. We know just how it is made and just what goes into it. And we know that we use nothing but the very freshest and finest materials. The chocolate we use is the best money can buy. And it is pure and unadulterated. Our fillings are pure. You can't find one ounce of glucose, or any other substitute in our kitchens. Of course we could cheapen quality - and perhaps many people would never know the difference-but we are determined that Rubel's candy shall be the very finest made and we are doing everything possible to make it such.

We still make our more expensive chocolates (our fruit and nut centers for instance) but Rubel's assortments at 70 cents a pound are made in the same fine way and of the same highest grade materials which we have always used and always will use.

Our 4 assortments at 70 cents a pound are the biggest candy values you can buy. Try them. Bite into one of our chocolates and notice the really thick chocolate coating around each piece. The fine grade, pure chocolate we use costs us lots of money but it makes Rubel's candy taste as we want it to taste, and as you like it to taste.

BLAME NEW YORK SELFISHNESS FOR PORT CONGESTION

Seaway Analyzed.

BY ARTHUR EVANS.

New York's opposition to the St. Lawrence seaway project is being put under the microcrope by the Great Lakes-St. Lawrence Tidewater associa-tion. The experts point out that for twelve or fifteen years past the trans-portation system in normal times has nent, meaning the loss of vast sums of money, and that the inadequacy of New York's port facilities places a bur-den upon producers, both farm and factory, in mideontinent. Industrial enter, is being choked by terminal congestion in the Atlantic ports in normal times and by excess costs of \$6 to \$20 a ton in the port of New York.

A booklet was issued by the association which embraces eighteen midwest

states yesterday reviewing the evi-dence submitted before the interna-tional joint commission, whose report approving the St. Lawrence project has just been submitted to congress Several pages deal with New York. which is hostile to the undertaking. Tells of Port Conditions.

The conditions at the port of New York—unspeakable, intolerable, incredi-ble—are uncontradicted," it says. "The terminal charges are excessive—the charges absorbed by the railroads, the charges paid by the shipper, the charges paid by the vessel. The invisible and extraordinary costs are excessive. The costs absorbed by the railroads, according to Dr. R. S. McElwee's calculation, on a pre-war basis, were from \$2 to \$3 a ton in excess, as compared with other terminals. The excessive costs paid by the shipper were from \$1 to \$15 a ton; the excess cost to the vessel was \$3 to \$5 a ton. Tax Put at \$12,750,000.

The monstrosity of New York, that is the disproportion involved in pushing half the tonnage of the country the transportation system as a whole. Mr. H. C. Barlow of Chicago shows by figures compiled by the New York

and New Jersey Port commission, that the difference between the amount aland the actual cost of terminal service New York is \$12,750,000 a year, the tax of New York's terminal monstrosity upon national transportation—equal to the interest at 5 per cent on the esti-mated cost of the St. Lawrence im-

After being fined \$50 and costs in the sheffield avenue court yesterday for being frunk and abusing his wife, Fred Krause, 36 years old, 1709 Barry avenue, was released with a warming and promised to be good. His sife intervened for him, asking the fine to be et aside, as Krause would revenge himself on her if he had to pay it.

Preside Gates said last night a number of letters had been received expressing opin ions of clubs on the rules, and that he expected a large attendance. Members of clubs are invited, in addition to the regular delegates. All of the officers have been renominated with the exception of Guy Gregg, the treasurer, who will be succeeded by E. S. Rogers of Indian Hill.

Golfers who have been delayed at the Hal-sted street crossing in Riverdale when mo-toring to the south side clubs will learn with pleasure that Manager J. A. AN OLD RECIPE

TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost every one knows that Sage Tea and Salphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved

You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Every-body uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and even-ly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

gale Itself during the present opera season, but none has been more mysterious nor more interesting than those that went the rounds last night. There was more visiting among the boxholders during the intermissions than usual and during the promenade at the end of the second act the main topic of conversation was the disagreement between the director and the principal tenor. Sharing the interest of the few who knew she was in the addience with Miss Mary Garden was Miss Mathilde McCormick, youngest daughter of Mrs. Rockefeller McCormick and Harold F. McCormick, who arrived in Chicago yesterday from New York, where she had been met by her father. Miss McCormick was not with her father in box four, but was with her governess in box nineteen, directly over box five which was occupied by her mother and guests, who were Mr. and Mrs. Wayne Chatfield-Taylor, Mr. and Mrs. Donald McPherson and Franklin MacVeagh.

YESTERDAY'S AVERAGES

The New york Times. Un Profit Shar.

New York, Jan. 18.—[Special.]—
Wall street's attention was chiefly directed to the stock market today, in which transactions rose to the largest total in a fortnight, with a dozen or more advances of 1 to 5 points. This activity, however, was rather transparently the work of professional speculators. There was nothing in the hews to cause change of judgment regarding values.

Increased activity with less important movements, although the principal changes were upward, occurred in bonds. In a few instances active profit taking was apparent. Libertys were typical of this, with renewed irregularity. The second, 44s, fourth 44s, and Victory 34s were off slightly, but the Liberty 34s gained nearly ½ point.

Car Loading Tonnage Increased.

Car Loading Tonnage Increase of 4,500 tons in the railway "car loadings "reported for the first week of January. But this had no real significance; such an increase over the interrupted traffic at the end of December always occurs at the beginning of a year. Excepting for the final weeks of 1921 and 1920 and one in the spring of 1920, the linerstate traffic and prejudicial to interstate commission in a tentative decision. The commission prescribed new rates to remove all loadings reported today are the smallest preferences and discriminations.

The Butterick company's annual report for 1921 is expected to be one of the best ever issued-and may show net income of approximately \$1,000,000, or about 8 per cent on the capital stock. In 1920 net amounted to only \$234,303. It would not be surprising if the stock was restored to the list of dividend payers this year. Nothing has been distributed since 1916.

The United States circuit court of appeals affirmed the action of the Federal district court in New York in dismissing the injunction suit brought by Clarence H. Venner against the Southern Pacific company and the Pacific Oil company. Venner alleged that the segregation of the Southern Pacific's rail and oil properties required by the Hepburn act, and the turning over of the oil properties to the Pacific Oil company would deprive him of interests he had as a stockholder of the Southern Pacific company in the property of the Southern Pacific Land company.

Mr. E. N. Sanderson, President of Federal Light and Traction Company, Summarizes as follows from a letter dated January 12, 1922:

Business: Federal Light and Traction Company owns or controls public utility properties furnishing electric light and power, gas or traction facilities in fourteen communities in the states of New Mexico, Arizona, Oklahoma, Wyoming, Washington, Colorado, Missouri and Arkansas. The companies operate without competition in their several fields.

Earnings: The earnings applicable to charges on first lien bonds for the twelve months ended November 30, 1921, were equivalent to over 3.25 times these charges, including the requirements of this issue. For the three preceding calendar years such earnings averaged over 2.5 times these charges. Approximately 82% of the net earnings for the twelve months ended August 31, 1921, were derived from the sale of electric light and

Bolivian (External Loan) BONDS To Net 8.20% to 8.40% The complete history of the foreign loans

of the Republic of Bolivia offers one of the strongest arguments for the purchase of the present issue—the External Loan 6% Gold Bonds of the Bolivian Republic, priced to yield 8.20% to 8.40%. The record of the Bolivian Foreign Loans is as follows:

Morgan Loan of 1909—£500,000—6% Bonds due 1934. Offered by J. P. Morgan & Company—Sold to yield 67%.

Loan Called for Payment

(This issue is now held by the Basco de la Nacion Boliviane)

"Credit Mobilier Francais" Loan (\$4,850,000) 6%

"Credit Mobilier Francais" Loan (\$4,850,000) 5% Bonds due

1950—sold to yield 51/4%.

Loan Called for Payment American Loan 6% Bonds (\$2,400,000) - Redeemable 1940 - Sold to yield 63/8%. Now Outstanding

The two most impressive features of this record are: First-That the present issue is offered on a much higher interest yield than the former issues—8.20% to 8.40% against 5½% to 6½%. Second—every issue except the issue of 1917 (uncallable until 1940) has been called for payment. It is possible that the present issue-the External Loan 6% Bonds of the Republic of Bolivia—will be called prior to maturity, but this will result in a considerable profit to the investor, an average of approximately \$120 for each bond.

It is argued on one side that Russians 47 will find corn, the cheapest food and will grind it in their mills, as there are many mills in that country. On the other hund, 47%4647% heaps who caim to know of conditions in Russia say corn cannot be used economically for food there. One man with unusually good facilities for knowing says the people who are behind the export movement in corn want to get it out of the country, regardless of where it goes.

Two sets of opinions are expressed as to the desirability of sending corn to Russia for the year thus far. Early sales were at 10@25c advance, but in mid-session part of the gain was lost, due to much smaller shipping orders. Good buying by packers late in the session added tone to the trade.
